

Super Hero Headquarters

First time to HQ? It is located on the edge of the city, under Central Station. To gain access, approach the service elevator to the right of terminal 12 and use the following code on the control panel — up, up, down down, left, right, left, right, B, A, Start. (Unless there are two of you, then press Select before Start.) An iris scanner will open above the control panel for bio-identification. Once confirmed, our system will ask you one question only you could answer, “What is your mother’s maiden name?” If answered correctly, you’ll be granted access. If not, the elevator will plummet to the center of the earth.
